

this legislation establishes a statutory duty on the SBIR program agencies to provide the SBA with data on each SBIR award winner in a timely manner. Moreover, it requires the SBA to maintain a comprehensive and public database of the small firms that receive SBIR awards and the activities supported by SBIR funds.

Finally, the GAO recently issued a report raising questions about the geographic concentration of SBIR awards. From fiscal year 1993 through 1996, companies in one-third of the states received 85 percent of the SBIR awards. Companies on the east and west coast received a vast majority of these awards, while companies in the South, Midwest and Rocky Mountain states generally received very few awards. For example, the GAO reported that in fiscal year 1997, companies in Massachusetts and California received 202 and 326 phase-two awards, respectively, out of approximately 1,400 awards nationally. Thus, they received almost 38 percent of the awards.

Mr. President, if the SBIR program is going to continue to be successful, it is incumbent on us to do more to reach out and provide opportunities to firms in the South, the Midwest and the Rocky Mountain states that can provide high-quality research and development and provide them with the information and assistance they need so that they may seize the opportunity to participate in the SBIR program. The SBIR program was never intended to serve a limited group of small businesses, and we must do all we can to increase the participation of as many small businesses as possible.

Therefore, this legislation establishes a comprehensive program to assist states in the development of high-technology businesses that could participate in the SBIR program. Specifically, the bill creates a matching-grant program for organizations at the state or local level attempting to enhance or develop technology research and development by small business concerns. This legislation acknowledges that states that do not aggressively support the development of high-technology firms are at a competitive disadvantage in establishing a business climate conducive to technology development. More importantly, however, building stronger support for high-technology firms will expand economic opportunities for our country generally and will increase our competitiveness in the world market.

The Small Business Innovation Research Program Reauthorization Act of 2000 is a necessary step to ensure that the Federal Government continues to utilize the vast capabilities of high-technology small businesses to meet its research and development goals. Moreover, it ensures that these research funds are leveraged to strengthen our Nation's economy and its position as the lead innovator in the world.

The bill in front of us, with the Managers' amendment, is a reasonable compromise that will provide an effective structure for this program for the next eight years. Given the hard work that has gone into this compromise legislation, I trust that the House will act quickly on this bill, so that small businesses involved in the SBIR program will have confidence that the program will continue without interruption.

A bi-partisan statement has been drafted by the Senate Committee on Small Business and the Committees on Science and Small Business of the House of Representatives to explain provisions in the Managers' amendment that are not addressed in either the Senate or House Committee reports on H.R. 2392. I ask unanimous consent that, immediately following my remarks, this Explanatory Statement of H.R. 2392 be included in the RECORD.

Thank you Mr. President and I ask for immediate consideration of the bill and its approval.

Mr. BURNS. Mr. President, I ask unanimous consent that the amendment be agreed to, the committee amendment, as amended, be agreed to, the bill be considered read the third time and passed, as amended, and the motion to reconsider be laid upon the table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 3944) was agreed to.

The committee amendment, as amended, was agreed to.

The bill (H.R. 2392), as amended, was read the third time and passed.

TIMBISHA SHOSHONE HOMELAND ACT

Mr. BURNS. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of Calendar No. 661, S. 2102.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 2102) to provide to the Timbisha Shoshone Tribe a permanent land base within its aboriginal homeland, and for other purposes.

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Indian Affairs, with an amendment to strike out all after the enacting clause and insert the part printed in italic:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Timbisha Shoshone Homeland Act".

SEC. 2. FINDINGS.

Congress finds the following:

(1) Since time immemorial, the Timbisha Shoshone Tribe has lived in portions of California and Nevada. The Tribe's ancestral homeland includes the area that now comprises Death Val-

ley National Park and other areas of California and Nevada now administered by the Bureau of Land Management.

(2) Since 1936, the Tribe has lived and governed the affairs of the Tribe on approximately 40 acres of land near Furnace Creek in the Park.

(3) The Tribe achieved Federal recognition in 1983 but does not have a land base within the Tribe's ancestral homeland.

(4) Since the Tribe commenced use and occupancy of the Furnace Creek area, the Tribe's membership has grown. Tribal members have a desire and need for housing, government and administrative facilities, cultural facilities, and sustainable economic development to provide decent, safe, and healthy conditions for themselves and their families.

(5) The interests of both the Tribe and the National Park Service would be enhanced by recognizing their coexistence on the same land and by establishing partnerships for compatible land uses and for the interpretation of the Tribe's history and culture for visitors to the Park.

(6) The interests of both the Tribe and the United States would be enhanced by the establishment of a land base for the Tribe and by further delineation of the rights and obligations of each with respect to the Furnace Creek area and to the Park as a whole.

SEC. 3. PURPOSES.

Consistent with the recommendations of the report required by section 705(b) of the California Desert Protection Act of 1994 (Public Law 103-433; 108 Stat. 4498), the purposes of this Act are—

(1) *to provide in trust to the Tribe land on which the Tribe can live permanently and govern the Tribe's affairs in a modern community within the ancestral homeland of the Tribe outside and within the Park;*

(2) *to formally recognize the contributions by the Tribe to the history, culture, and ecology of the Park and surrounding area;*

(3) *to ensure that the resources within the Park are protected and enhanced by—*

(A) *cooperative activities within the Tribe's ancestral homeland; and*

(B) *partnerships between the Tribe and the National Park Service and partnerships involving the Bureau of Land Management;*

(4) *to ensure that such activities are not in derogation of the purposes and values for which the Park was established;*

(5) *to provide opportunities for a richer visitor experience at the Park through direct interactions between visitors and the Tribe including guided tours, interpretation, and the establishment of a tribal museum and cultural center;*

(6) *to provide appropriate opportunities for economically viable and ecologically sustainable visitor-related development, by the Tribe within the Park, that is not in derogation of the purposes and values for which the Park was established; and*

(7) *to provide trust lands for the Tribe in 4 separate parcels of land that is now managed by the Bureau of Land Management and authorize the purchase of 2 parcels now held in private ownership to be taken into trust for the Tribe.*

S. 2712

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Reports Consolidation Act of 2000".

SEC. 2. FINDINGS AND PURPOSES.

(a) **FINDINGS.**—Congress finds that—

(1) existing law imposes numerous financial and performance management reporting requirements on agencies;

(2) these separate requirements can cause duplication of effort on the part of agencies and result in uncoordinated reports containing information in a form that is not completely useful to Congress; and

(3) pilot projects conducted by agencies under the direction of the Office of Management and Budget demonstrate that single consolidated reports providing an analysis of verifiable financial and performance management information produce more useful reports with greater efficiency.

(b) **PURPOSES.**—The purposes of this Act are—

(1) to authorize and encourage the consolidation of financial and performance management reports;

(2) to provide financial and performance management information in a more meaningful and useful format for Congress, the President, and the public;

(3) to improve the quality of agency financial and performance management information; and

(4) to enhance coordination and efficiency on the part of agencies in reporting financial and performance management information.

SEC. 3. CONSOLIDATED REPORTS.

(a) **IN GENERAL.**—Chapter 35 of title 31, United States Code, is amended by adding at the end the following:

"§ 3516. Reports consolidation

"(a)(1) With the concurrence of the Director of the Office of Management and Budget, the head of an executive agency may adjust the frequency and due dates of, and consolidate into an annual report to the President, the Director of the Office of Management and Budget, and Congress any statutorily required reports described in paragraph (2).
